## GEN AND GRAVES

idential Nominees of the Independence Party.

## VENTION FINISHES WORK

ard, of Kansas, Created a Contention and Much Indignation in the Convention by Attempting to Put Van's Name in Nomination.

Chicago, July 30.—The first convention of the Independence partitioned its labors early Wednesday afternoon by nominating Thomas L. of Massachusetts, for president of the United States, and John T. Graves, of Georgia, for vice president, adopting a platform of principles. Nomination of Hisgen was made on the third ballot, with a vote of 511 of 948 ballots cast. Graves was elected for second place on the second ballot.

The first ballot for president was Hisgen 336, Graves 213, Howard 71, Hearst 49. Total 511 necessary for a choice, 616.

The Lyon vote came from New York and Connecticut. Ohio and New Jersey favored Hearst. Southern delegations divided between Graves and Hisgen, and New York, Oklahoma, Oregon, Illinois, Iowa and Michigan helped the latter, while Illinois and Michigan gave votes.

In the second ballot the first break came from Connecticut, which voted Hisgen and a solid fourteen, seven of which had gone formerly to Graves. Illinois followed with 54 for Hisgen, taking 22 from Graves and 5 for Howard.

Kentucky moved up into the Hisgen column, taking 26 from Howard; New Jersey transferred 64 of her 73 and Texas added 36 more ballots to Hisgen. The ballot stood: Hisgen 590, Graves 189, Howard 103, Hearst 49. Total vote 937; necessary for a choice 616.

Maryland rallied to Hisgen. New York followed, with 71 votes for Hisgen. Ohio, leaving Hearst, gave 44 Hisgen and 2 to Graves; Oregon, North Dakota changed likewise, then Virginia seeing the end, cast 24 votes in the same direction.

Michigan, Georgia, Missouri, District of Columbia, Florida and Tennessee, then changed their votes to Hisgen.

The vote as announced stood: Hisgen 821, Graves 77, Howard 38, Hearst 2. Total vote cast 948; necessary for a choice 632.

John Temple Gravens moved to make nomination unanimous, and it was done with a whoop.

The nomination of Mr. Graves as president by acclamation followed immediately.

John L. Sheppard, of Kansas, who attempted to put W. J. Bryan's name on the nomination, had to be given protection of the entire force of Independence party officials to save him from infuriated delegates.

Sheppard was escorted from the hall in detail of sergeants-at-arms, the crowd of delegates surging and denouncing him as a traitor. The national committee was authorized by the convention to kill any and all enemies.

Bad Dog Bites Seventeen Persons. New Orleans, July 30.—Bitten by an old male dog, whose head he fought with them, a party of seven men, women and children of Spanish, Okla., appeared at the Passageway of the New Orleans char hospital Tuesday and applied for treatment. Composing the party were two white women, eleven white men, one white man and a negro man and her two children.

Doctor's Body Mutilated. Fort Worth, Tex., July 30.—The body of Dr. Earle Dycus, aged twenty, of a prominent Ft. Worth firm, was found early Tuesday on the Fort Worth and Denver railroad tracks, three miles from Wichita Falls, Texas, and it is believed he was killed and his body placed on the tracks. The authorities are on the way to inspect.

Killed by a Train. Nashville, July 30.—Dr. Deuster, Al., Carl Cartwright, a prominent Athens, Ala., merchant, was run over by a Lehigh and Nashville freight train and both legs broken off. He was taken to Athens, where he died soon after his arrival.

## STRANGE CASE THIS.

Charged With Homicide in Having Frightened Man to Death.

New York, July 30.—Charged with homicide in having frightened a man to death by pointing a gun at him, Gergois Marrho, twenty-nine years of age, a barber, is locked up at police headquarters. His case is one of the strangest that has ever found its way to the police blotter.

The address given by Marrho is a barber shop. The police allege that Marrho went to the barber shop on May 14 last to collect a bill from Imade Nazarian, another barber employed there. Nazarian appeared to be reluctant about paying the money and the two men exchanged words.

In the heat of the argument, it is said that Marrho drew a revolver and pointed it at Nazarian. At the sight of the revolver, Nazarian dropped to the floor in a faint and Marrho, who was also badly frightened, took to his heels, although he had not discharged the weapon.

Nazarian was taken to Bellevue hospital. After he had been there a few hours, internal hemorrhages set in and he died a few days later.

The doctors said that fright was responsible for his death.

The police have been searching for Marrho for two months.

## STICKS TO LOCAL OPTION.

Texas State-Wide Prohibition Amendment Lost.

Dallas, Tex., July 30.—Practically complete returns from 117 of the 224 counties of this state and scattering returns from thirty-seven others give the vote in last Saturday's primary election for the negative in the matter of submission of a state-wide prohibition amendment 77,726 votes, and the affirmative 68,855. The total vote is estimated at 300,000, and of this number 208,000 have been accounted for, many persons not voting on this proposition.

The election law declares that no specific demand for legislation shall be made in the party platform unless it shall have received a majority of all the votes cast in the primary election, and the submission proposition, it is believed, will fail of this requirement by perhaps 50,000 votes when complete returns are received.

Finest Golf Links in World.

Chicago, July 30.—A dispatch to the Tribune from Galveston, Tex., says that John W. Gates has contracted for the construction of the finest golf links in the world at his home at Port Arthur, Tex. Work has been commenced on the track embracing 750 acres of land. The new links will represent an expenditure of nearly a million dollars, including the cost of the land—\$150,000. Plans of the celebrated links of the world have been studied and an agent of Gates toured Europe and inspected the best links. A club house costing about \$160,000 is to be erected.

Crusade Against Money Lenders.

Kansas City, Mo., July 30.—A systematic crusade against money lenders was started Tuesday when Isaac Drake, a negro train porter of the Union Pacific railroad, brought suit against Patrick J. Hughes for \$25,200 damages. The Union Pacific is supporting this suit and its local attorneys are also Drake's attorneys. Mr. Watson, one of the company's attorneys said that two similar suits were now in preparation for other employees. The company, he said, means to rid its employees of usurers.

Pickens Peach Crop Prolific.

Jasper, Ga., July 30.—The peach season, which has just closed, was one of the most successful ever known in this county. Over one hundred cars of the finest peaches ever raised in Georgia were shipped from Jasper. While prices were not as good as expected, they were much better than those reported from other points in Georgia.

## Killed by a Train.

Nashville, July 30.—Dr. Deuster, Al., Carl Cartwright, a prominent Athens, Ala., merchant, was run over by a Lehigh and Nashville freight train and both legs broken off. He was taken to Athens, where he died soon after his arrival.

## BRYAN'S NOTIFICATION

It Will Occur at Lincoln, Neb., on August 12.

## CLAYTON TO DELIVER SPEECH

Alabama's Part in the Ceremony Will Be the Same as that Taken by Senator Warner in the Taft Notification—Says Bryan is Strong in West.

Mobile, Ala., July 30.—A special from Montgomery, Ala., says:

Congressman Henry D. Clayton, of the third Alabama district, who was chairman of the democratic national convention at Denver, in Montgomery, Wednesday announced that the committee on notification of Mr. Bryan would meet in Lincoln at noon of August 12th, and that Mr. Bryan would be formally notified of his nomination during the afternoon of that day.

"I was astonished at the great strength that I found for the democratic ticket in the west," said Mr. Clayton, in an interview. "Of course, we expected Mr. Bryan to be strong in the west, but his strength west of the Mississippi is great."

Mr. Clayton will deliver the speech of notification to Mr. Bryan. His part in the ceremony will be the same as that taken by Senator Warner, of Missouri, in notifying William H. Taft of his nomination by the republican national convention.

As permanent chairman of the democratic convention, Mr. Clayton became chairman of the committee on notification.

## RELEASED ON \$5,000 BOND.

Case of George Scudamore, Alleged Pensacola Embezzler

Mobile, Ala., July 30.—A Pensacola, Fla., special says:

The hearing of the testimony presented in the criminal court in the case of George C. Scudamore, alleged embezzler of \$70,000 from the Pensacola Bank and Trust company, came to a close Tuesday night and the court announced its decision as being that Scudamore, the defendant, is mentally incapable of conducting his defense.

The defendant was adjudged insane some months ago, and sent to the asylum. There the physicians after watching him for a number of weeks declared him to be feigning and dismissed him from the asylum. He was then arraigned here for trial, but his attorneys still contend that he is insane, and the court, after hearing the testimony, so decided. Scudamore was released on a bond of \$5,000.

## TURKISH CRISIS NOT OVER.

Tide of Affairs May at Any Moment Turn Against Sultan.

Constantinople, July 30.—The crisis in Turkish affairs is by no means over.

The demonstrations that have been in favor of the sultan may at any moment turn against him if he does not yield to the demands of the constitutional party for the dismissal of the palace camarilla.

It is believed that the sultan will make these concessions, although to do so is a difficult matter.

It is apparent that the sultan is becoming uneasy. Troops prevented further demonstrations in front of the palace.

## Davenport Appointed.

Americus, Ga., July 30.—H. T. Overton, commander of Camp Sumter-United Confederate Veterans, has been appointed brigadier general commanding the western division of Georgia, succeeding General John Devanhugh, recently deceased. The appointment was forwarded by Major General John Clark, of Augusta, commanding the Georgia division.

## Commission to Investigate.

Washington, July 30.—The interstate commerce commission has issued a statement to the effect that without waiting for the filing of formal complaints, it will institute an investigation of its own motion for the purpose of determining whether or not advances in freight rates are justified.

## TRADE OUTLOOK GOOD.

That is Opinion of Officials of Southern Railway.

Washington, July 30.—At a conference between President Finley, executive officer of the Southern Railway company and affiliated companies, and officers of the traffic and operating departments of the Southern railway system, general conditions of business in the south and prospects of the future were discussed thoroughly.

It was the consensus of opinion that there is a trend in the direction of the improvement of business throughout the southern states. The agricultural outlook is encouraging. Southern fruit and vegetable crops have generally been good and have found a ready market at prices which, although in some cases below those of former years, have been profitable.

The present condition of the cotton crop and the grain crops of the south is good. If there is no deterioration in cotton between now and the close of the season the yield will be large. As a result of general prosperity among the communities, retail business in most southern towns has kept up fairly well. Merchants have been buying conservatively, however, and the effect has been a curtailment of wholesale business and depression in some lines of manufacturing.

Stocks of all kinds in the hands of dealers have been reduced and with the good agricultural outlook there is reason to expect a gradual improvement in all lines of business.

## 300 REPORTED DROWNED.

Chinese Steamer Foundered During a Severe Typhoon.

Canton, July 30.—The Chinese steamer Ying King, engaged in the local passenger trade, foundered Monday during a typhoon.

Three hundred Chinese are known to have been drowned.

Only twelve of those on board the unfortunate vessel were rescued.

The Ying King was of 788 tons, 200 feet long and was owned in Hong Kong.

## Babe Hanged by Bed Clothes.

Macon, July 30.—Dangling from his bed by the head, five-month-old Luisa Hendricks, infant of J. H. Hendricks, a machinist in the shops of the Georgia Southern and Florida railway, met death by strangulation when it rolled to the edge and off three feet above the floor. The parents were horror stricken when returning to the room, where the child was left asleep in bed, they found the unfortunate babe lifeless. The hanging was so complete that no noise could be made and the body had passed through one opening while the head failed at another much smaller.

## Body of Cashier Found.

Birmingham, Ala., July 30.—The dead body of F. C. Neighbors, cashier of the Southern railway at North Birmingham, was found in the woods there by two small boys Tuesday, a bullet hole being in his head. The young man had been missing since Saturday. A pistol was found near the body, and there is suspicion of suicide, though some believe that murder was committed. The young man was not short in any accounts.

## Drowning Was Accidental.

Annandale, Minn., July 30.—While there is no explanation of the manner in which Mr. and Mrs. Rainbeck of New York, were drowned in lake Sylvan Tuesday, the corner is of the opinion that the suggestion of foul play is without reason and that the couple were the victims of an accidental overturning of the boat in which they were sailing.

## One-Cent Stamp Caused Killing.

Wharton, Tex., July 30.—R. P. Poinier shot and killed G. W. Jackson at Pierce, Tex., Wednesday. The son carried over a one-cent postage stamp. Jackson had mailed letters with only one cent postage and Poinier who had charge of the post office, called his attention to the matter. A quarrel ensued resulting in the shooting.

## Kaiser Goes to Cracow.

Switzerland, July 30.—Emperor William arrived here Wednesday evening to board the imperial yacht to inspect fortifications for his three week's cruise in northern waters.

## SAYS IT IS CORNISH

Body of Man Found Floating off Gravesend Beach.

## FOUL PLAY IS SUSPECTED

Corps Identified as that of Harry S. Cornish, One of the Central Figures in Celebrated Adams Murder Case of a Few Years Ago.

New York, July 30.—That the slain body of a man found floating in the tide off Gravesend beach last Sunday is that of Harry S. Cornish, one of the central figures in the Adams murder case of a few years ago.

It was the opinion of the coroner that the body was that of Harry S. Cornish, one of the central figures in the Adams murder case of a few years ago, in almost daily contact with Cornish at that time. He is Charles Crane, who was employed as a private detective to watch some of the McInleaux jurors while the trial was in progress, and who now holds a position in a Coney Island amusement resort.

He said that Cornish had been in business at the same resort for several years, that he has seen him almost daily and is convinced it is the same Cornish who occupied such a prominent place in the sensational columns of the newspapers ten years ago. After looking at the body in the morgue, Crane said he could not be mistaken in the identification. The condition of the body left no doubt that the man had been murdered.

Harry Cornish in 1898 had a room at Eighty-sixth street and Amsterdam avenue with a Mrs. Rogers and her mother, Mrs. Kate Adams. There came to him on Christmas of that year a fancy bottle holder containing a bottle labeled bromo-seltzer.

Two days later Mrs. Adams had a headache and took some of the supposed bromo-seltzer. She died in agony a short time afterward, for what the bottle really contained was cyanide of mercury.

Cornish at that time was athletic instructor of the Knickerbocker Athletic club.

Soon after the death of Mrs. Adams the police arrested Roland B. Molineaux and charged him with the murder, charging him with sending the bromo-seltzer. Molineaux was convicted in the first trial and acquitted in the second.

## NEGRO WAS CREMATED.

Vengeance of Texas Mob for Outrage Upon a White Girl.

Dallas, Tex., July 30.—"Tad" Smith, a negro boy aged eighteen, charged with a criminal assault on Miss Viola Deassey at Clinton, Hunt county, on Monday afternoon, was captured by officers at 2 o'clock Tuesday morning. He was taken before the young lady and identified.

The prisoner was then hurried to the Greenville jail. Before arriving there a mob of citizens overpowered the officers, took the prisoner, and prepared to hang him. This idea was given up, however, and the mob agreed to burn him at the stake.

Faggots were piled up in the public square at Greenville, and the negro was placed thereon. Kerosene oil was poured on and a match applied. Smith slowly burned to death, while a thousand people witnessed the execution.

## 50,000 Fire at Villa Rica.

Villa Rica, July 30.—By far the most disastrous fire in the history of Villa Rica occurred Tuesday morning between midnight and 4 o'clock, when practically one-fourth of the business section of the town went up in smoke. The section burned lies north of the Southern railway, and consists partly of new and modern brick and stone buildings. The estimated loss is close to \$50,000, about one-third of which is covered by insurance.

## Troops Leave Natrona.

Natrona, La., July 30.—The state troops who have been stationed here for several days to prevent rioting, have left here. A large number of the Negroes who fled from the community in fear of violence have returned. There appears to be no danger of further clashes between Negroes and Americans.

## OUR EXCURSIONISTS WERE A HAPPY "SET"

Arrived in Palatka Over Three Hundred Strong, With Plenty Wind.

### ONE AIR TRIP FOR OAK HALLS

Then Settled Down and Played Ball. Good Hard Rooting, But We Had Them "Bested" in the Players As Well As in Faithful Fans.

o Darned Time in My Life"—Man-

Gainesville's "Baseball Special" left Thursday noon about three hundred strong and proceeded to "take" Palatka upon their arrival in the Gem City. It was a jolly good crowd of rooters and fans, and we surprised them with the number we had with us.

The home team took a little trip "up" in the second inning, but as the weather was hot they soon decided it was cooler to come down and play the game, which was done in a magnificent manner, being a pretty contest if the box score does seem otherwise.

Interest never lagged during the nine innings, and although we had them outclassed, the Palatka aggregation was a faithful lot and kept up their rooting until the last, and many were the compliments passed upon the Oak Hall players by the enthusiasts of that city, many of them coming from the ladies, who seem to thoroughly understand the game.

Thursday's result puts the clubs even and the "rub" will probably be played at an early date, when we hope to see the Palatka bunch bring up their clever set of players and rooters in large numbers.

Following is a synopsis of the game by innings:

#### First Inning.

J. Merrill grounded to pitcher, out at first; Souberoux popped out to short. Pddy followed suit. No runs.

Graham grounded to third, but was caught at first; Sheets hit to left and reached first; Hutchinson got first via Big Four and Tison, who ran for Sheets; moved up to second; Mitchell hit safe to short, who threw to second, when it was muffed, filling the bases; McLeod hits to left for two bags, scoring Tison and Hutchinson; Mitchell and McLeod thrown out at bases. Two runs.

#### Second Inning.

F. Merrill hit safe through short for one bag; Dillon grounded to third reaching first on errors and Merrill advanced to third, Dillon stealing second; Paine gets hit and fills the bases; Marwick grounded to second, reaching first and scores F. Merrill and Dillon; Coachman popped an easy one to second and Hilt foaled out to catcher; J. Merrill singled to left, sending Paine and Marwick over the rubber; Souberoux (Sourbeer) fouled out to right, retiring the side. Four runs.

Denton punched; Watson got his base, going to second on Kennard's sacrifice; Marten singled through second, scoring Watson; Graham out, third to first, leaving Marten on second. One run.

#### Third Inning.

Pddy fanned; F. Merrill ballooned

to second; Dillon thrown out, short to first. No runs.

Sheats skied out to short; Hutchinson grounded to second, out at first; Mitchell missed three, but got his base on an error by catcher, and stole second; McLeod out, short to first. No runs.

#### Fourth Inning.

Paine popped out to short; Marwick got a walk; Coachman whiffed, and Marwick was caught napping on first. No runs.

Denton out on three swings; Watson hit to center for one base; Kennard rolled one to pitcher, forcing Watson out at second; Hutchinson, running for Kennard, stole second and went to third on wild throw; Marten was hit on the third strike, retiring the side. No runs.

#### Fifth Inning.

Hilt flew out to short; J. Merrill skied out to second, "Sourbeer" reached first on an error by third, but was caught trying to swipe second. No runs.

Graham out, short to first; Sheets sends one to center who nabbed it; Hutchinson whiffed.

#### Sixth Inning.

Pddy rolled one to third, out at first; J. Merrill singled to left; Dillon ballooned out to center; Merrill got second; Paine out, pitcher to first. No runs.

Mitchell fanned; McLeod out, pitcher to first; Denton retires the side by fanning.

#### Seventh Inning.

In the beginning of this inning Canova took Kennard's place on third.

Marwick out, third to first; Coachman rolled one to Sheets and was thrown out at first; Hilt lost out on a high one to third. No runs.

Watson raps a beauty to left for one base; Canova got first on error by pitcher, but Watson was caught in an attempt to reach third; Marten reached first on an error, and Canova and Marten scored on overthrows. At this stage of the game a heated argument arose over ground rules regarding passed balls or overthrows, the Palatka bunch maintaining that an agreement had been made previous to play that only one base could be taken on an over throw, but finally conceded they were in the wrong, when play was resumed. Graham was first man up after the wrangle, and sent a safe one to left for one base, but was caught at second; Sheets retired the side on a fly to left. Two runs.

#### Eighth Inning.

J. Merrill reached first on an error; Sourbeer hit at three wide ones; Pddy did the same; Merrill stole second and reached third on an error, coming home on a sacrifice; F. Merrill reached first but was caught pilfering second. One run, which tied the score—and right here the enthusiasm of both sides was at fever heat, the rooters getting "buzzy."

Hutchinson popped out to third; Mitchell lines a safe one through

short, but was forced out at second by an infield hit by McLeod; McLeod was caught trying to steal that contagious second base. No runs.

#### Ninth Inning.

This was short, but not "sweet" for Palatka fandom, as Dillon went out short to first, Paine fanned and Marwick was thrown out, third to first. No runs.

Denton hit to right for one base; Watson hit to short who threw wild to second and Denton goes on to third; Canova sent a long fly to left, Denton scoring on the throw-in, winning the game.

Palatka—well they looked sick.

## The Swine and the Flower

Oh me! I saw a huge and loathsome sty,  
Wherein a drove of wallowing swine were barred,  
Whose banquet shocked the nostril and the eye;  
Then spoke a voice, "Behold the source of LARD!"

I fled, and saw a field that seemed at first  
One glistening mass of roses pure and white,  
With dewy buds 'mid dark green foliage nursed;  
And as I lingered o'er the lovely sight,  
The summer breeze that cooled that Southern scene,  
Whispered, "Behold the source of COTTOLENE!"

## Nature's Gift from the Sunny South

COTTOLENE is a pure and wholesome frying and shortening medium, made from refined cottonseed oil. There is not an ounce of hog fat in it to make food unwholesome, greasy and indigestible.

As evidence of its superiority, COTTOLENE received Grand Prize (highest possible award) at the Louisiana Purchase Exposition;

and Gold Medals (also representing highest awards in each case) at the Charleston Exposition, the Paris Exposition, and the Chicago World's Fair. In fact, in every case wherever COTTOLENE has been exhibited in competition with other cooking fats, it has invariably been granted the highest award.

J. A. Maultsby of Campville has the  
distinction of shipping the first bale  
1908 cotton from Alachua county,  
which was made on Wednesday, and  
another followed yesterday.

The bale in question was of exceed-  
ingly fine texture, long staple, and it  
is thought will bring a handsome price  
in the market.

Mr. Maultsby, who operates the gins  
in Campville, says that commencing  
with next week he expects to run his  
gins regularly as the fleecy staple is  
ripening very fast, and it is hoped  
that the rains will not interfere with  
the crop by causing rust.

The market is not good, but it is  
sufficient to put some of the "al-  
mighty" in circulation among the  
farmers and the general public.

W. W. Gordon & Co. of Savannah  
were the parties to whom the above  
shipments were made, and it can be  
safely said that this firm has always  
handled a large proportion of the cot-  
ton from this section. They keep a  
man in the field here all the time,  
as the staple produced here is of such  
quality that they want it.

Water Famine Threatens Lisbon,  
Lisbon, July 30.—Owing to the  
bursting of the principal water main  
in the city, Lisbon is threatened with  
a water famine. The authorities in-  
structed the populace to fill all vessels  
possible before the reservoir became  
extinct. Live scenes were enacted  
around the public fountains, water  
holders trying to impede the people  
with a view to future profits. The  
police were obliged to interfere.

GAINESVILLE MONEY  
WILL ESTABLISH GINS

Local Capital Organized to Handle the  
Cotton Industry Here.

## WILL PROVE OF ADVANTAGE

Action Was Quick and New Ginnery  
is Now Assured for the City—it  
Will Save Farmers Long Trips.  
City Will Be Cotton Center of State.

Quick action has been taken as a re-  
sult of the article in The Sun of Wed-  
nesday concerning the ginnery and the  
handling of cotton at this point.

Gainesville capitalists have already  
got together, and while no definite  
plans have been formed it is generally  
understood among the promoters  
that they will at once erect the necessary  
building and place the order for  
the machinery with the house that can  
make the first delivery.

In the meantime they propose to  
take care of all the cotton offered for  
sale in this section and will establish  
for this point a market that will give  
the city the prestige that is properly  
due, as they will make it the leading  
cotton center of the State.

The staple will be handled in both  
the seed and lint, and while we will  
not now give the names of the pro-  
moters we can assure our readers that  
the capital behind the enterprise is  
ample to meet the demands liable to  
be made.

## CONSECRATED BISHOP.

Interesting Ceremony in Chicago and  
Archbishop Quigley Presided.  
Chicago, July 30.—Prelates, priests  
and laymen from all parts of the  
United States witnessed the consecra-  
tion here Wednesday of Bishop-elect  
Paul Peter Rhode, Chicago's new aux-  
iliary bishop, and the first Polish-American  
priest in America to be elevated  
to the episcopate in the Roman Catholic  
church.

Archbishop Quigley conducted the  
consecration ceremonies in the cathedral  
of the Holy Name. After the  
ceremonies, the newly consecrated  
bishop, accompanied by the officiating  
and visiting clergymen, partook of a  
banquet arranged by Chicago priests.

A politician had better look like a Jay than talk like a parrot.

It is an old saying that when a man breaks down he is gone up.

No county in Florida can boast of a more honest or competent set of officials than Alachua, as demonstrated by the reports of the State auditor.

Keep your eyes open while going about town, answering ads, and you will be surprised to find what an interesting, busy, prosperous, "evolving" city you live in!

A negro turpentine hand in Alabama was struck by a rattlesnake and immediately dropped dead from fright. The snake's fangs became fastened in his clothing, but his flesh was not touched.

The rains of the past few weeks have been a blessing to the farmers of this section, but if they continue through August as they have through July they will prove detrimental to the cotton growers.

Judge Mason has a corner on the divorce practice in Alachua county. It appears that the colored element labor under the impression that they have to be separated by the same man who issued them license to wed.

Many people labor under the impression that circuit judges, State solicitors, State chemists, adjutant-generals, State auditors and supervisors of registration, are to be voted for at the general election, but such is not the case. These officials are appointed by the Governor, and the selection of candidates in the primary is simply a recommendation to him.

Each subscriber to Sunday's Daily Sun and The Semi-Weekly Sun of next Monday will receive a handsome lithograph picture of Hon. William Jennings Bryan, Democratic candidate for President. This feature will cause these two issues to be especially popular with the general public, and advertisers will find it profitable to communicate with the buying class through the columns of these editions of The Sun.

It is rumored on the streets that the books of the various city officials have been checked up by an accountant and found correct, but the public has not been made aware of such report by its publication, as required by the city charter. The report should be in detail, showing receipts and expenditures in itemized form, and not as published last year, which was simply to the effect that so much money had been received and so much paid out. The people are entitled to more explicit information as to what is done with their money, and should have it

BOLSTERING UP PROSPERITY.

The St. Louis and Pittsburg Sunshine clubs must have missed connections somehow. Their tales of prosperity do not seem to bear inspection at close range. Mr. John T. Milroy of Jersey City writes to The New York Post that:

"Nine weeks ago I lost my place in the business office of an iron company on account of dull times, and about two weeks ago, after searching in vain here for work, I went to look for work. I was led to make the trip by a newspaper dispatch which said that 50,000 men had been put back at work. I thought that if this was true I would surely be able to get a place.

"When I got to Pittsburg, I found the newspaper report to have been absolutely untrue. There are thousands of men out of work in Pittsburg, and I was told at two factories when I applied for work and made inquiry about the calling back of the workmen that it made people feel better to have the newspapers print sunshine news. Maybe this is sunshine news to many people, but it cost me \$28.50 that I could not afford to spend. I am back here and still out of work. If the newspapers would print the truth I think it would be better, or at least if they cannot set forth the real situation, they might better remain silent."

For the benefit of others who may be deceived like Mr. Milroy was it is necessary to say that the stories emanating from Pittsburg and other centers about resumption of work by factories are much exaggerated. There has been a slight improvement in some lines of business in the East, and some factories have started up, but there will be no general resumption until after the crops are assured and the result of the coming election is known. In the agricultural States, West of the Mississippi, there is comparatively good times in consequence of the big prices of farm products and the favorable prospect for the new crops.

The Sunshine clubs are inspired from railroad sources and are said to be instigated for political and stock jobbing purposes, it being necessary for Harriman and others to bolster up the Wall Street speculative market and for the Republicans to lend a hand to offset the effect of the panic and business depression on the voters.

A Cincinnati dispatch says Joseph E. Lee, the colored Republican "boss" of Florida, was a problem for the local arrangements committee and the notification committee incident to the formal notification of Taft. Lee was a member of the notification committee, and when he presented himself at the aristocratic Sinton Hotel, with other members, all white, the management of the hotel made a determined protest against receiving the Florida Republican boss as a guest. There was much discussion between the local and notification committeemen, and the management of the hotel finally agreed to permit Lee to occupy a room, although he is the first negro ever so received at the Sinton, with the understanding that it was to be done very quietly and that Lee should not be served in the dining-room. Lee was therefore escorted by a back entrance to a room and was told to make himself as inconspicuous as possible. While the other members of the committee enjoyed a sumptuous meal in the dining-room of the hotel, Lee took his meal in solitude and silence in his room. But the Florida "boss" was "there" at the Taft residence and sat with the committee as prominently and as unabashed as any of the members.

Analyze the dullest day at the store—and you will resolve it into the net result of not-enough advertising.

RATS BRING BUBONIC PLAGUE.

Discussing the terrible bubonic plague, which has become a menace to some of our Western cities, and the war against rats in the hope of eradicating the disease, the August number of Popular Mechanics says:

"Few people realize the enormous number of rodents which infest the centers of population. The rat population is much larger than the human population. Not only in the cities but in the country, the warehouses, railroad cars, boats and packing houses are breeding places. From the producer to the consumer human food is preyed upon, run over and eaten by rats. Nocturnal in their habits they infest houses, barns and alleys without human knowledge. Burrowing under houses and walls they breed with great rapidity. When a rat becomes sick with the plague it travels along the numerous runways, scattering plague infected fleas, and at last dies in some inaccessible spot under some building. Here in its dead body the germs are preserved for months and at last blown along in the dust. Therefore it is necessary not only to destroy the life of the rodent, but its carcass as well. The remedy which promises most is the removal of rat-producing conditions, and here concrete comes to the front again, as the substitution of concrete in all surface and underground construction is the rat's greatest foe. The rat revels in wooden structures and when we have more cement wharves and stone, brick, concrete and steel buildings the rats will be fewer." The article is illustrated.

A gentleman took his son to the baseball game Wednesday between the White Springs and Gainesville teams. The little fellow having been compelled to muzzle his dog in accordance with the city ordinance, and observing the mask worn by one of the catchers, asked: "Papa, what is the matter with that man, is he mad?"

## FLORIDA NEWS...

The Titusville Lumber Company, valued at \$100,000, has been sold. Harry Pritchett of Jacksonville and William Pritchett of Dublin, Ga., are purchasers.

The St. Augustine Board of Trade is taking active steps towards arranging to take care of and entertain the seafarers who are to visit that in the fall. Excursions are to be operated from Chicago to give the seafarers an opportunity of visiting Florida at small expense.

The oil from the much-talked-of galleys which were stranded at Mosquito Inlet several weeks ago has been shipped to the whaling station at New Bedford, where it will be put under inspection. The men who have spent their time in this business now expect the returns from the 1,800 gallons shipped.

Dr. Warren E. Anderson, a prominent physician of Pensacola, has come to the Pasteur Institute in Atlanta for treatment for the prevention of rabies. The doctor was called to the home of a Mrs. Gue, who had been bitten by her pet terrier, and as he entered the house the dog sprang at him, sinking its teeth in his ankle. Few hours later the dog died and Dr. Warren immediately departed for Atlanta.

Policeman Lowery of Pensacola has been suspended from the police department of that city for reckless shooting. Tuesday night the officer had shot two negroes at the patrol call-box when one made a dash for liberty. The incident occurred early in the night and at the union depot, where crowds of people were congregated. The officer, notwithstanding this fact, drew his revolver and fired six shots at the fleeing negro.

Mr. G. G. Hensler has an exhibition monster wildcat which he captured a few nights ago. The cat had been eating his chickens, and a trap baited with a live hen played the important part of the capture. Mr. Hensler has taken the cat from the trap-cage but is willing to give the curio to any person venturesome enough to do the deed. In length the cat is about thirty inches and is a scrapper of the Sullivan class.—Apalachicola Times.

## TORTURES OF ECZEMA YIELDED TO CUTICURA

"Cuticura Remedies are all you claim them to be. I had eczema for over two years. I had two physicians, but they only gave me relief for a short time and I cannot enumerate the ointments and lotions I used to no purpose. My ankles were one mass of sores. The itching and burning were so intense that I could not sleep. I could not walk for nearly four months. One day my husband said I had better try the Cuticura Remedies. After using them three times, I had the best night's rest in months unless I took an opiate. I used one set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent Pills, and my ankles healed in a short time. It is now a year since I used Cuticura, and there has been no return of the eczema."

"I had a small lump in the corner of my eye for over a year which was very painful and got larger all the time. I thought I would try Cuticura Soap and Ointment on it, and now it is gone. I am seventy-three years old and have lived on the farm I now occupy for twenty-seven years. Cuticura Remedies are the safest and most reliable I have ever used for all skin humors. Mrs. David Brown, Locke, Crawford Co., Ark., May 18 and July 13, 1907."

Thos. H. Keating and his former conferees in the saloon business here, who, acting under the advice of their attorneys, H. H. Buckman of Jacksonville, and John E. Marshal of this city, filed a bill in the circuit court to set aside the recent local option election, have lost out. The suit was against L. C. Stephens, et al., county commissioners, who employed Hon. S. J. Hilburn of this city, to look after the county's interests, and who some time ago filed his demurrer to the bill. Judge James T. Wills of Starkville gave his decision on Monday. It sustains the demurrer of Mr. Hilburn and taxes the costs on the ex-saloon keepers. Of course this will surprise no one—not even the men who brought the suit. They have simply paid for having a little fun.—Palatka News.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. ## GEORGIA LEGISLATURE.

House Favors Abolishing Fee System for Solicitors, Etc.

Atlanta, July 30.—That the house is in favor of abolishing the fee system for solicitors and court officers was brought out in the session Tuesday when, by a vote of 102 to 56, it went on record as favoring an amendment to the Holder convict bill which will have the revenue derived from the leasing of convicts, after the actual court costs are paid, to go into the county treasury and not into the insolvent fund of the court.

This was the most important amendment to the Holder bill adopted during the session.

The McMichael tax act, providing a local taxation for school purposes, received another endorsement Tuesday afternoon in the house committee on general education, when the committee refused to hear read a measure (introduced by request) which sought to repeal the McMichael law as it now stands on the statute book. The committee unanimously reported this measure back, with the recommendation that it do not pass. A number of local bills were acted upon.

By the decisive vote of 12 to 5, the house committee on county and county matters voted to leave the matter of taking a decree absolute against the Tennessee Copper company and the Ducktown Sulphur, Copper and Iron company, at Ducktown, Tenn., in the hands of Attorney General Hart, just as it has been for a year.

Two important measures were acted upon by the house special agricultural committee. The first was the bill by Mr. Edwards of Habersham, setting as a fee for oil inspectors, on the inspection of car-load lots of oil, \$10 instead of \$41, the present fee.

The other was the bill by Mr. Mays of Butts (by request) to establish a state veterinarian at an annual salary of \$2,000, which was unfavorably reported.

Much time was again devoted Tuesday to the convict question in debate over amendments to the same.

By the decisive vote of 55 to 96 the house defeated the amendment of Mr. Dean, of Floyd, abolishing whippings in camps and substituting solitary confinement. The amendment by Mr. McMullan, of Hart, prohibiting the working of convicts on Sunday, was adopted.

Was in Poor Health for Years.

Ira W. Kelley of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Disastrous Storm at Canton, China.

Canton, July 30.—In a terrible storm Tuesday morning, thousands of native craft were swamped, many people being drowned. The British river gunboat Robin and the French river gunboat Argus and Vigilante went adrift and were considerably damaged. In the city numerous houses collapsed, entombing the occupants. The public gardens were wrecked.

## REACHING THE SPOT

It Can Be Done, So Scores of Gainesville Citizens Say.

To cure an aching back, The pains of rheumatism, The tired-out feeling. You must reach the spot—get at the cause.

In most cases 'tis the kidneys. Doan's Kidney Pills are for the kidneys.

Mrs. W. O. Tison, living at 408 S. University street, Gainesville, Fla., says: "Mr. Tison had suffered from kidney complaint and rheumatism for a number of years. He was never free from a dull aching in his back and often his joints would become very stiff. There was also an irregularity in the action of the secretions that was very annoying. When he saw Doan's Kidney Pills so highly advertised, he procured a box at J. S. Bodiford & Co's. He had been using them but a short time before a great improvement was noticeable in his condition. The pains soon disappeared, and the kidney action became normal. Mr. Tison thinks Doan's Kidney Pills have no equal as a kidney remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## NEWPORT, TENN., EXCITED.

Sheriff Declares He Will Fight to Protect Prisoner's Life.

Nashville, Tenn., July 30.—A dispatch from Newport, Tenn., says that excitement runs high at that place over the criminal assault of Miss Lydia Innan, a twenty-year-old girl, by Mose Porter, an educated negro, and sheriff R. Yer has received letters threatening his life and property because he has taken every precaution to protect his prisoner.

While there have been many threats of a lynching, Sheriff Royer declared he would remain firm and fight, if necessary, to save the negro's life from mob violence.

## 20,000 TELEGRAPH

## OPERATORS NEEDED

Young Men Prepare Yourselves for Good Positions.

On account of the new eight-hour law passed by Congress in the interest of telegraphers, and also on account of so many new railroads being built and old lines extended, an unusual demand for operators has been created. Conservative estimates have placed the number of additional operators that will be required during the next ten months at approximately 20,000.

YOUNG MEN, NOW IS YOUR OPPORTUNITY! Enroll in our school NOW and in only four to six months we will have you qualified for splendid positions. Telegraph Operators receive from \$30.00 upwards. Our school has been established twenty years; its equipment is perfect; instruction thorough and practical; positions positively guaranteed our graduates. Board in Newnan is very cheap; the town is healthful and the people are cordial. Two Main Line Railroad Wires run into our school rooms. No other school in the United States has such up-to-date and practical facilities for the benefit of its students. Write at once for free descriptive literature.

## DEMAND FOR TIMBER LANDS.

**Big Deal Consummated In Middle Georgia Counties.**  
Columbus, Ga., July 30.—The general improvement in all business conditions is well illustrated by the growing demands for timber lands. Recently several large tracts of pine in the southeastern states have changed hands, and the demand for hard timber seems keener than ever.

Among the deals of special magnitude during the past week was the purchase by the Massee-Felton Lumber company, of Macon, Ga., of 20,000 acres of hard wood timber lands in several middle Georgia counties at the round sum of \$135,000. Sales of farm lands at satisfactory prices also continue, and the figures indicate steadily advancing values. In Sumter county, Georgia, two farms were sold during the past week at \$30 per acre, a good illustration of the prices brought by plantations in southwest Georgia.

## BRIEF DISPATCHES.

A 45-round bout has been arranged between Joe Gans and Battling Nelson at San Francisco on September 12th.

W. H. White, Sr., a pioneer citizen of Atlanta and confederate veteran, is dead. He was sixty-four years of age.

Will Fitts, aged twenty-four, was hit on the neck with a bat while playing ball at Cenaville, Tex., causing his death a few hours later.

Dorando, the Italian runner who collapsed in the Marathon race, makes the statement that he will in the future run as a professional in shorter distances than the Marathon.

Invitations have been sent to William H. Taft and William J. Bryan, the rival presidential candidates, to attend the interstate fair and exhibition in Denver in September and deliver addresses.

Representatives Llewellyn Powers, of the fourth Maine congressional district, died of Bright's disease. Mr. Powers served as governor of Maine for two terms and was serving his sixth term in congress.

The young Turk committee at Salnikoff has requested the Austro-Hungarian and Russian civil agents to leave Macedonia, asserting that under the new constitutional regime international supervision in Macedonia will no longer be necessary.

**New Fruit Steamers.**  
New Orleans, La., July 30.—The Cartago, the first of three new passenger and fruit steamers of the United Fruit company which will reduce by twelve hours the trip from here to Colón, is in New Orleans harbor. The new boats will not only run to the Isthmus of Panama, but also to the Caribbean ports of Central American countries. The Cartago is 393 feet in length, of 5,000 tons gross, and has a capacity of 65,000 bunches of bananas. She was built at Belfast.

**May Reconsider Decision**  
Tokio, July 29.—A feeling of less apprehension seems to be growing in Japan with regard to the ultimate action of the five American railway companies which threaten to raise their fares on goods carried eastward from the Pacific coast. A combined protest having been made by several Japanese steamship companies, it is thought probable that the directors of the five railways will reconsider their decision.

**Conflict in Parliament.**  
London, July 30.—Another conflict was entered into between the house of lords and the house of commons on Tuesday night, the lords carrying the amendment which limits the operation of the old age pension bill to seven years, despite the lord high chancellor's warning that such interference with a money bill was an infringement upon the privilege of the house of commons, which would be firmly resisted.

**Will Relieve Cruiser Albany.**  
Washington, July 29.—It is announced at the navy department that the cruiser Milwaukee had been ordered to Amatapu, the port on the northern coast of Honduras, to relieve the cruiser Albany. The Milwaukee is now at Honolulu. The Albany on being relieved will proceed to San Diego, Cal.

## Old Time Drunkenness.

In reviewing "The Early Married Life of Maria Josepha, Lady Stanley," the London Spectator comments on the light in which drunkenness was regarded at the beginning of the nineteenth century. There was a christening of twins and rejoicing among the neighbors, tenants and laborers. "All the guests," says Maria, "were as drunk as I ever had the pleasure of seeing any one." Among the laborers, however, "that extent of intoxication was not reached which causes men to be swine."

Lady Sheffield, who received this account of the festivities, replies: "I would have given a great deal to be present. There is nothing I love so much as such sort of festivities, where one has the satisfaction of knowing that one makes one's friends happy as well as drunk." In London, she declares, "when you give a ball you affront many people, please a few, make many drunk and yourself miserable."

## How It Happened.

"Force of habit. The poor fellow was an actor and naturally dived for the spot light."—Kansas City Journal.

## Two of a Kind.

"Oh, George," sighed the lovesick maiden, "I'm sure I'm not worthy to be your wife."

"Well," replied George wearily, "I'm not worthy to be your husband, so we're just about evenly matched."—Philadelphia Press.

## To the Strict Letter.

"Mary," said the lady of the house, "you didn't put any salt in this bread."

"But," replied the new girl, "didn't the master say yesterday he wouldn't have nothing but fresh bread on his table, m'm?"

## Longest Will on Record.

What is called the longest will on record is that of Captain Robert Keayne, founder of the Ancient and Honorable Artillery Company of Boston.

It contains about 50,000 words. Printed and bound, it would make a good sized volume, comparing favorably in length with many a novel of the present day.

In its voluminous proportions this will is in striking contrast to one probated in New Orleans a number of years ago, in which the testator disposed of its earthly possessions in five words—namely, "Mistress Roper is my heiress."

The original of Captain Keayne's will is carefully preserved in the vaults of the register of probate of Suffolk county. In volume 1 of the record of wills probated it covers 140 pages, and it is recited in the will that the document was drawn up in the handwriting of the testator.

While Captain Keayne, who was originally a merchant tailor in London, left a fortune of fair proportions for his day, it is of interest to note that at the present day fortunes of millions of dollars are frequently disposed of in complicated trusts by only a few hundred words.—Boston Post.

## Chivalry and Fatness.

Have you never noticed that great personal bulk and chivalry go almost always together? Well, they do, and I am reminded of a circumstance that happened long years ago. There was in congress from the state of Alabama a gentleman named Dixon Lewis. He was notorious for his stoutness as well as for his coarseness and abilities. This gentleman was a Virginian by birth, but removed early to Alabama, which state he represented during several terms of congress and was in the senate at the time of his death in 1848. Biographers relate of him that one time after the adjournment of congress he was on his way home in a steamer that was wrecked and while he had an opportunity to do so refused to take a seat in a small boat because his great weight would jeopardize the lives of others in the boat, and, although for a time he was in great danger, he was at last rescued. There was a noticeable combination of chivalry and fatness.—Washington Post.

## Famous Pictures.

In the ceiling of the dining room in Nero's "golden house," on the Palatine hill, were compartments inlaid with ivory which revolved, showering perfumes and flowers on the guests.

Flowers were presented to the guests by slaves. They were crowned with wreaths. Usually after one course the tables were removed and others placed before the guests. Throughout the meal drinking continued until the banqueters fell under the table stupefied. In those days men lived to eat. Great generals spent fortunes accumulated in years of warfare in gratifying their appetites. Lucullus on one dinner with Cleero and Pompey spent 50,000 drachmas, or \$7,000. Pithylus, who was famed for the delicacy and originality of his dinners, wrapped his tongue in linen when not using it. That he might better appreciate flavors of the viands he had it cleaned with fish skin before dining.

## A DRAGON HUNT.

Take Place in Turkey and Was a Great Success.  
Yes, I wunst hunted dragons, and my hunt was successful, too," said a Mr. Fatmeh, the native quarter of Constantinople. I lived there with my wife, a Circassian gal. Fatmeh by name, and comin' home from a calf one night."

## THE TREATY TREE.

There Penn and the Delaware Chiefs Exchanged Tokens.

The "treaty tree," the original American Hague, where our first peace congress was held, with William Penn on one side and the Delaware chiefs on the other, was a mighty elm that stood at Shackamaxon, on the banks of the Delaware river, Kensington, one of the suburbs of Philadelphia, now surrounds the spot.

As was customary on such occasions, the parties to the treaty exchanged belts of wampum, and the belt said to have been given Penn on this occasion is now in the collection of the Pennsylvania Historical society. It

consists of eighteen strings of black and white beads, and in the center are two figures, representing a European and an Indian, with hands joined in friendship. In exchanging tokens with the chief Penn said:

"The friendship between you and me I will not compare to a chain, for that might rust, or the falling tree might break. We are the same as if one man's body were to be divided into two parts. We are all one flesh and blood." When the Indians handed Penn the wampum belt of peace they said:

"We will live in love and peace with William Penn as long as the sun and the moon shall endure."

The treaty tree was blown down in a windstorm March 10, 1810. Its age, estimated by rings, is 283 years. The William Penn society erected a marble column upon the site as a permanent monument.—Kansas City Star.

## The Overtired Conductor.

When the horse cars were in existence there was a greenhorn known as John who conducted on the Thirteenth and Fifteenth street lines. He boarded with his two aunts, who lived on Catharine street, between Thirteenth and Broad. One day his aunts thought they would take a ride with John and see how he was getting along, so they waited for his car. Soon the car began to get crowded and passengers got off and on at every square. John began to get angry. At last he became so exasperated at having to stop so often that when an old lady asked him to stop at Chestnut he bawled out: "I'm darned sick and tired pulling the bell. It's nothing but stop here and stop there, stop here and stop there. Away with you all down to Catharine street with my aunts, and you get out in a bunch."

—Philadelphia Ledger.

## Two of a Kind.

"Come, come," cried the brusque and bustling real estate man, "why do you pay rent when you might own a home?"

"I—I don't pay rent," replied the startled stranger.

"Then you own a home?"

"No."

"That's strange. May I ask your business?"

"I'm a real estate dealer."—Cleveland Plain Dealer.

## DO YOU WANT TO

## MAKE OR LOSE MONEY

## THIS SUMMER?

There is no good reason for any "summer dullness" in the stores of this city. That's a strong statement—but it's not nearly so strong as the one to follow.

No store in this city ever suffered from summer dullness that was not directly traceable to its advertising policy—that was not INEVITABLE on account of its advertising policy. This is a strong statement—but not so strong as the one to follow.

You—if you who read this are a merchant in this city—HAVE THE ABSOLUTE POWER TO DECIDE WHETHER, during THIS summer, YOUR STORE SHALL LAG AND LOSE GROUND, through ENCOURAGING THE NON-BUYING HABIT IN THE PEOPLE—or shall keep as busy as in the so-called "busy seasons." You decide the matter one way or the other when you decide on how much or how little you will advertise during these summer months.

To really "gain ground" at a time when some stores are lagging and falling back is not only possible—it is an aspiration—worthy of a man who has the habit of accomplishing his purpose.

## VACANT STORES ARE IN GREAT DEMAND

Real Estate Agencies Report They Could Fill Many Buildings.

### APPLICATIONS FROM OUTSIDE

One Real Estate Dealer Has Had Six Applications in Past Few Days—No Vacant Stores to be Found in the City.

Vacant store buildings are badly wanted in this city and as an evidence of how this town is held from a commercial standpoint is the many applications being received among the real estate men wanting buildings.

One dealer alone has had six different applications for buildings within the past ten days and was compelled to notify the parties that the buildings could not be obtained.

The applicants so far represent different lines of business and it is to be regretted that the vacant buildings could not be secured. There are buildings that could be used for store purposes provided the tenants could secure suitable warehouses but this cannot be done, as this class of buildings are also in demand.

Gainesville has long been noted as the best interior town in the State and the mere fact that it has always been on a solid basis causes many interested capitalists to look in this direction.

Dr. Goldstein of Tampa, who has been in Gainesville often, returned Thursday, July 30, for a few days only, with office at Brown House. Dr. Goldstein is well-known and has treated and fitted glasses to thousands of people all over the State, which relieve nervousness and headache. Consult him. Eyes examined free.

Will Stockhouse was arrested Thursday by Marshal Arnoux for stealing a watch from J. W. Chisholm, which was valued at about \$32. The Marshal succeeded in getting the watch and Stockhouse was placed in jail, and will be given a preliminary hearing before Judge Mason Saturday morning. Both darkies were employed at the ice factory.

### FOOD FOR THE FANS

(Continued from Page Two.)

many nice things said by Palatka's feminine set for the sawed-off one.

—X—

One feature of the game was J. Merrill's playing on second for Paintka—he nearly caught a ball.

—X—

Our little air stunt in the second was all right. We had to do something to keep them company.

—X—

If Denton did miss a few, he connected with the proper one in the math. It started the fireworks going.

—X—

McLeod, the big one, is a peach, and a Palatka girl was heard to remark that they would like to make an exchange of their excuse.

## ALL PRUDENT BANKERS

Before making loans, or agreeing to give any person or firm a certain line of credit, require a thorough statement of the affairs of the prospective borrower. If this statement is satisfactory, and shows that it is the policy of the borrower to conduct his business prudently and economically, the banker grants the loan.

## ALL PRUDENT DEPOSITORS

Should be just as careful to look into the affairs of the Bank in which they deposit their money—satisfy themselves that the Bank is conservatively managed before depositing their money. Depositing in a Bank is practically the same thing as loaning your money to the Bank, and you are entitled to know something of its affairs. See our last statement.
